

REALITY CHECK ON VOTING RECORDS

REPUBLICANS VOTE TO CREATE JOBS

Republicans and Democrats in California are all talking about “jobs, jobs, jobs” this year - but talk is cheap. Legislators are sent to Sacramento to VOTE. Republicans are the only ones in the Capitol fighting FOR job creation and AGAINST job killers.

Don't take our word for it - take a look at how State Assembly Members ranked on the most recent scorecards from the California Chamber of Commerce and the National Federation of Independent Business. One thing is clear - Democrats talk about jobs, and Republicans vote to create and protect them.

REALITY CHECK ON VOTING RECORDS

DEMOCRATS VOTE TO KILL JOBS

When Democrats talk about job creation, they mean more government jobs that the state can't afford, and publicly subsidized green jobs – at the expense of taxpayers and small businesses. Given the chance to vote for measures that would grow California's economy, make our state more competitive, and help put people back to work, they did the opposite.
